

RAINY DAY? NO PROBLEM!

We have an activity you can do in the rain or on a sunny day!

What happens when it rains?
Where does all that water go?
In High Point, a lot of our rain
flows down our streets and
into storm drains.

Have you ever
noticed these
drains before?

You have probably seen these everywhere!

They are in school parking lots, grocery store parking lots,
all along the side of neighborhood streets, and sometimes
even in a low place in your yard!

**Ask your parents to go with you for a
walk in your neighborhood, or around
town and see if you can fill in this
Stormwater Scavenger Hunt!**

STORMWATER SCAVENGER HUNT

A clean storm drain with running water

A clean storm drain with no water

A manhole cover with a fish on it

A plaque on the curb that says "Only Rain Down the Drain"

Storm drain with trash or recycling in it

Storm drain with leaves or sticks in it

Did you see any animals on your walk?

People doing yard work

A downspout

Bonus Challenge!

Count how many storm drains you see on your walk. Challenge a friend to do this scavenger hunt in their neighborhood and call each other to compare what you found!
